1. In answer to Complaint: For each subfile listed above, please initial in one of the two boxes to indicate whether you object to the description of water right(s) contained in the State's proposed Consent Order, or whether you make no claim as to the water right(s) described in the State's proposed Consent Order.

I object to the description of the water right(s) described by Subfile Number(s) CHCB-005-0004 because

I Mario R. Martinez, do claim Water Right to The said property  
005-0001 B 16.4 ac., 005-0004 B 6.5 ac. Water Rights are -

Legal Declaration of Claim

6276

Clearly Established, and easily verifiable in History of Record of the Trujillo Lopez Ditches, Ref Emiliano Maez Ditch. Therefore I declare At this point, with due process and Legal account, That The Aragon claim is unfounded in its reason or cause. It is Common Knowledge that drought has Stricken The Region For over Twenty years, spurately and intermittently varying with the seasons.. Also hoarding At the headwaters is a significant and well known factor. Therefore Removal of water rights at this point, is unconstitutional, As it Defeats The purpose of Adjudication.

I made a good faith effort to resolve my disagreement with the State's proposed Consent Order by by the above declaration, since The purchase of The premises resolve has been delayed in pro late court of the First Judicial District, Also, A Devorce between Mario Martinez, and Sophie Martinez is in process. At this point I am prepared to file All the necessary documents with the State Engineer as to my claim, usag and Historical Rights, once again, hoarding at the Headwaters and drought are not a just cause to disclaim my Rights. For This is why adjudication is in order. To prevent this type of violation and to protect the citizen
